

Submit your video link

For products where you have been selected for a collaboration.

1 Open My Collabs

Sign in with the **same account you used to apply**, then open **My Collabs**.

affiliatereel.com/my-offers

My Collabs
Your applications and confirmed collaborations — track decisions, deadlines, and submitted videos.

Filters: All 1, Active 1, Applied 0, Overdue 0, Completed 0, Cancelled 0. Search by product title or ASIN...

PRODUCT	TASK #	ORDER #	ASIN	STATUS	REGION	DATE	CLICKS	VIDEO
Cotton Pillowcases, Set of 2	#1001	DEMO-1001	—	Selected - collaboration confirmed	UK	Oct 2026	—	Submit video →

Current page layout with fictional product and account data.

2 Choose the confirmed collaboration

Check the product and **Order #**. Look for **Selected · collaboration confirmed**, then click **Submit video**. If it is still **under review**, wait to be selected.

3 Paste your link, then click Submit

In **Submit your video**, paste the full link to your published video. Use the video link, not the product page or storefront.

Submit your video

Paste the link to your published video. You can update it any time before it's approved.

Submit

Demo URL only. Replace it with your own published video URL.

Check that it went through

Submitting starts the confirmation process. Check the status below the form.

Submit your video

Paste the link to your published video. You can update it any time before it's approved.

Confirmed <https://example.com/my-published-video>

Update link

Your saved video link is confirmed.

Example: a confirmed submission. The URL shown is fictional.

Awaiting confirmation

Your link is saved in AR and waiting for confirmation. The system retries automatically. Use **Check status** later; avoid repeat submissions.

Confirmed

Your video link is confirmed for this collaboration. **This is not approval of the video content.** Open the saved link to check it.

Needs review

Contact the AffiliateReel team with the product name and **Order #**. Re-submitting the same link will not resolve the issue.

Need to change your link?

Edit the link and click **Update link**, then wait for confirmation again. Changes are not saved just by typing. Completed or cancelled collaborations no longer accept updates.

Before you send: test that the video opens without your login. This form accepts a video URL, not an MP4 upload. If a file is also required, follow your collaboration brief.
